

Every Case is Unique - We Resolve the Issues

PAIN EVALUATION
INITIAL EXAM CHECKLIST (for
PSYCHIATRY FOLDER)

Medicare Set Aside Allocation

Our professionals have extensive experience in Medicare Allocations, medical treatment guidelines, usual customary and reasonable pricing as well as state fee schedules.

The result? A defensible projection of future care for the Medicare client or soon to be Medicare eligible client. All in a timely manner!

This type of projection necessitates understanding of the pricing parameters as well as the current clinical guidelines. We are nurses **and** certified medical coders, a combination that is rare in the industry.

Resolution Focused-Result Driven

- Cost effective resource
- Proven track record
- Accurate coding
- Knowledge of both medical coding and the process of medical service reimbursement
- Appropriate medical pricing

Make us part of your team - Experience Counts
